EXPERIENCE

Founder & Google Ads Consultant

Saerens Advertising · Belgium

- Acquired, onboarded and managed 10+ SMB clients across Belgium and the Netherlands — entirely through inbound and referral, with zero acquisition spend.
- Ran 5+ Google Ads and 3+ Meta Ads accounts simultaneously across e-commerce, home services, automotive, B2B distribution, real estate and SaaS.
- Cut one client's monthly ad spend by €14k while holding conversion value flat, through account restructuring and a negative-keyword strategy.
- Built and managed a 5-account MCC for one client; scaled another from 1 to 5 domains across Belgium and France to expand lead generation.
- Won most retainers by first fixing broken tracking / Consent Mode, then upselling into full management; shipped two SaaS products solo (ConsentEase.io, Abonnement.website).
